

Mark Messner

Argonne National Laboratory
Building 212
9700 Cass Ave.
Lemont, IL 60439

Phone: +1 (630) 252-6510
Email: messner@anl.gov

Additional contact information

Personal email: mark.messner@gmail.com
Home phone: +1 (847) 254-1740

Education

2011-2014	Doctor of Philosophy , <i>University of Illinois at Urbana-Champaign</i> , GPA 3.96/4.00 Major: Civil and Environmental Engineering Advisor: Robert Dodds, Jr. Dissertation: <i>Micromechanical models of delamination in Al-Li alloys</i> Computational Science and Engineering Certificate
2010-2011	Master of Science , <i>University of Illinois at Urbana-Champaign</i> , GPA 3.96/4.00 Major: Civil and Environmental Engineering Advisor: Robert Dodds, Jr. Computational Science and Engineering Certificate
2006-2010	Bachelor of Science , <i>University of Illinois at Urbana-Champaign</i> , GPA 3.97/4.00 Major: Civil and Environmental Engineering, Minor: German Degree awarded with Highest Honors and University Honors

Appointments

2016-	Structural Mechanics Engineer , <i>Argonne National Laboratory</i> Research topics: High temperature structural materials, design of high temperature nuclear reactors, crystal plasticity, machine learning methods for material and material model design, design of concentrating solar power systems, qualification of AM nuclear components Supervised a team of 2-3 postdocs and 1-2 staff on several projects supported through the DOE/NE Advanced Reactor Technologies program Initiated projects on concentrating solar power and advanced manufacturing
2014-2016	Postdoctoral Researcher , <i>Lawrence Livermore National Laboratory</i> Supervisor: Nathan Barton Research topics: Multiscale material modeling of additively manufactured structured materials, modeling and optimization of lattice-structured meta-materials, multiscale modeling of HCP metals
2010-2014	Research Assistant , <i>University of Illinois at Urbana-Champaign</i> Supervisor: Robert Dodds, Jr. Research topics: Parallel performance of WARP3D, crystal plasticity, mesoscale modeling of fatigue/fracture processes, homogenization and multiscale damage calculations

Honors/Awards

2012-14	National Defense Science & Engineering Graduate Fellowship
2010-11	University Fellowship
2008-	Tau Beta Pi

Professional Affiliations

2016-	ASME
2016-	ANS
2014-2016	APS
2006-	ASCE, EMI

Professional Service

2018-	Generation IV Forum Task Group on Advanced Manufacturing and Materials Engineering
2018-	<i>co-chair</i>
2017-	ASME Boiler & Pressure Vessel Code <i>committee chair</i> : BPV III SWG on Inelastic Analysis Methods
2018-2019	ASME Boiler & Pressure Vessel Code <i>committee member</i> : BPV III SWG on Inelastic Analysis Methods, WG on Analysis Methods, WG High Temperature Flaw Evaluation, WG Creep-Fatigue and Negligible Creep; BPTCS/BNCS Special Committee on Use of Additive Manufacturing for Pressure Retaining Equipment
2017-2019	PVP Conference <i>co-Technical Program Representative</i>
2018-2019	PVP Conference <i>track co-chair</i>
2019	WCCM/USNCCM <i>track organizer</i>
	<i>Reviewer for (past year)</i> : Modelling and Simulation in Materials Science and Engineering, Acta Materialia, ASME Journal of Pressure Vessel Technology, Journal of Applied Mechanics, Journal of Additive Manufacturing, Journal of Mechanics of Materials and Structures, Materials Chemistry and Physics, Journal of Nuclear Materials, Nuclear Science and Engineering, ASME PVP Conference Proceedings

Institutional and Community Service

2015-2019	Volunteer at middle school/high school DOE Science Bowl
2017-2018	Undergraduate and graduate student summer research program mentor
2013-2014	Qualification exam review course, course organizer

Funding Awards

2018-2020	DOE:EERE Gen3 CSP: Creep-fatigue design for CSP receivers – \$375k
2016	LLNL TechBase: Adaptive smart materials – \$65k
2015	LLNL TechBase: Material model library for lattice structured meta-materials – \$50k

Other Skills and Qualifications

Security Clearance:	DOE Q
Languages:	German (Proficient)

Publications/Presentations

Refereed journal publications
